

# Micromatic™ 13E

Walk-Behind Automatic Scrubber

## Advance

### FACT SHEET

If you're faced with dirty floors and are tired of the high labor costs, inconsistent results and safety concerns of mop and bucket cleaning, the Advance Micromatic™ 13E automatic scrubber is designed for you. The Micromatic 13E is a 13 inch, cord-electric scrubber with removable solution and recovery tanks. With the Micromatic 13E, an operator can leave floors clean and dry while increasing their cleaning productivity and consistent performance. The Micromatic 13E can replace mop and bucket cleaning in all small to moderately-sized areas of your facility.

The Micromatic 13E cleans circles around your mop and bucket. Per ISSA cleaning industry standards, the Micromatic 13E is twice as productive. Operators can clean 1,500 square feet of hard floor space on a single tank of solution.

The dual disc scrub brushes deliver 33 pounds of constant down pressure for consistent results every time. And, because the machine always uses clean solution on the floor, you'll get better cleaning performance than a mop and bucket. In high-soil load areas that typically require intensive cleaning with a mop and bucket, this scrubber will finish the area cleaner and faster.

Removable solution and recovery tanks allow for simplified filling and emptying during the cleaning process, and an available wand cleans hard-to-reach carpet and hard floor areas.

Easy to use for any operator, the Micromatic 13E offers simple controls while the ergonomically-designed adjustable handle ensures safety and comfort. The low profile of the machine allows you to reach and clean under tables and other obstacles. This fold-up, compact design also allows the machine to easily fit into a vehicle for transport or a closet for storage. It's ideal for those applications where you thought you had to use a mop and bucket because the space was too small to justify a large, automatic scrubber.

Wet floors left from mopping can create a serious safety hazard. With the effective squeegee pick-up of solution on the floor in forward and reverse, the Micromatic 13E increases your cleaning productivity and leaves floors clean, dry and safe for building occupants.

#### TYPICAL APPLICATIONS INCLUDE

- All Kitchens, Storage Areas, Small Rooms and Hallways in any type of facility
- Small Offices
- Hospitals / Healthcare Facilities
- Convenience Stores and Restaurants
- Building Service Contractors
- Government Buildings and Installations
- Schools and Universities
- Hotel / Motel, Casinos, Arenas

#### FREE YOURSELF OF THE MOP AND BUCKET

- **Increased Productivity**  
Micromatic™ 13E is twice as productive as a traditional mop and bucket.
- **Consistent Results**  
With 33 pounds of constant down pressure, floors are consistently clean.
- **Operator-friendly Design**  
To maximize operator comfort, the controls are simple to use while handles are ergonomically shaped to reduce fatigue.
- **Safer Cleaning**  
Effective water pick-up leaves floors clean and dry for building occupants.
- **Small Profile**  
The compact, fold-up design allows the machine to fit into nearly any small storage closet.

## Walk-Behind Automatic Scrubber

Easy to use scrub selection dial (left) and on/off switch (right)

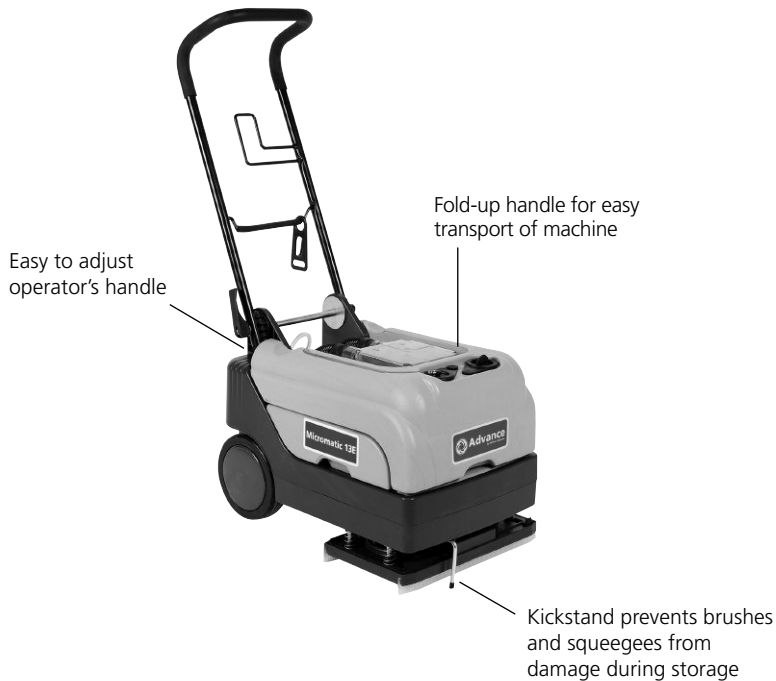

Recovery tank can be easily removed and emptied

Handle bar folds over top of base for compact storage or easy carrying and transport

Off aisle wand kit is an optional accessory

### Defining Cleaning Innovation...

- Our products are designed using innovative technology that increases productivity and drives down the cost to clean.
- You can get expert service and maintenance for your Advance machines from factory-trained personnel around the world. Fast parts delivery, too.
- Maintain peak performance with Nilfisk Genuine OEM Parts.

**Nilfisk** Genuine OEM Parts

## Technical Specifications

<b>Scrub Path</b>	13 in (33 cm)
<b>Scrub Type</b>	Dual 6.5 in (16.5 cm) disc brushes
<b>Productivity</b>	13,400 ft <sup>2</sup> (1,240 m <sup>2</sup> ) theoretical
<b>Scrub Pressure</b>	33 lb (15 kg)
<b>Smart Solutions™ Flow Rate</b>	0.1 gal/min (0.4 L/min)
<b>Scrub Time per Solution Tank</b>	18 minutes of continuous scrubbing per tankful
<b>Solution Tank</b>	1.8 gal (7 L)
<b>Recovery Tank</b>	2.1 gal (8 L)
<b>Controls</b>	Master on/off button and function selection knob
<b>Sound Level</b>	72.5 dB A
<b>Scrub Motor</b>	0.13 hp (100 W)
<b>Power Cable</b>	50 ft (15 m)
<b>Squeegee Width</b>	15.2 in (38.5 cm) – dual squeegees for pickup in forward and reverse
<b>Dimensions (machine body)</b>	L = 21.5 in (54.6 cm) W = 15.4 in (39 cm) H = 14.6 in (37 cm) – maximum 39.4 in (100 cm) at handlebar
<b>Weight</b>	48.5 lb (22 kg)
<b>Scrub Head Speed</b>	200 rpm
<b>Vacuum Motor</b>	0.74 hp (550 W)
<b>Vacuum Airflow</b>	78 ft <sup>3</sup> /min (37.2 L/sec)
<b>Vacuum Performance (sealed)</b>	76 in (19 kPa)
<b>Approvals</b>	ETL, CSA, CE
<b>Machine Part Number</b>	9087233020
