

Terra[®] 132B

Walk-Behind Battery Sweeper

Smart cleaning.

A Nilfisk-Advance Brand

Terra® 132B

Rugged Battery Sweeper

Productive, Rugged and Easy. Beyond the Traditional Vacuum.

The Advance Terra® 132B sweeper has been engineered to address a wide span of floor cleaning needs including both carpet and hard floor. The main broom counter rotates against the direction of travel providing superior cleaning. The side broom can be lowered to edge clean while you sweep.

The Terra 132B is hospital quiet to allow cleaning during the day without interrupting business. Since it is battery operated, you have free roaming abilities and no cord tripping hazards. In addition, the Terra 132B can capture larger debris that would clog a vacuum. The large hopper and over-throw sweeper design allows you to spend more time cleaning and less time emptying the hopper.

The Terra 132B has excellent dust control. It utilizes a two-stage filter system that consists of a carpet prefilter and a main panel filter. The prefilter traps larger light debris like carpet fibers allowing the main filter to work more effectively. The manual filter shaker frees up dust from the filter to maintain high dust control efficiency. An electric filter shaker is available as an option. The onboard charger makes recharging the unit fast and simple. Recharge at any time and anyplace without the need for a special battery room.

Since productivity matters, the Terra 132B is over 100% more productive than a 28 inch (71 cm) wide area vacuum!

For Superior productivity and cleaning results, the Advance Terra 132B delivers.

Ideal applications include:

- Carpeted and Hard Floors
- Retail Shops and Malls
- Office Buildings
- Government Facilities
- Educational Facilities
- Sidewalks
- Hotels
- Convention Centers
- Airports

Clean up on your bottom line with higher productivity equipment

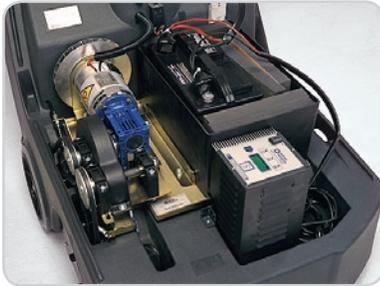

Labor is by far the major component of overall cleaning costs. Equipment cost is typically only 7% of the overall cost.

Products that provide a significant productivity increase, like the Advance Terra® 132B, pay for themselves in labor savings in a very short time.

Two stage dust control system for more effective dust control. Access filters without tools.

No tools required to access brooms and filter. Hood opens providing full maintenance accessibility to the cleanly engineered internal systems.

Excellent edge cleaning results from the side broom. Eliminates secondary edge cleaning operation common with vacuuming.

Main broom easily removed and replaced without the use of tools.

Litter flap allows the collection of large debris without having to stop to pick it up manually.

Convenient onboard charger provides flexibility to charge at anytime, anyplace.

Ergonomic, height adjustable handle design with conveniently located controls for safe and easy use by the operator.

FEATURES AND BENEFITS

- Sweeps up to 38,700 ft² (3,596 m²) per hour.**
- Turn the key and the full system is operational.**
- Onboard charger provides the flexibility to charge anywhere.**
- No tools needed to access brooms and dust filter.**
- No cords. No clogging.**
- No messy expensive bags.**
- Great edge cleaning.**
- Flexibility to clean both carpet and hard floors.**
- Less annoying noise.**
- Up to 100% more productive!**

Technical Specifications

Model	Terra® 132B
Sweeping Path	32 in (81.3 cm)
Main Broom	24 in (61 cm) x 10.5 in (27 cm)
Side Broom	14 in (42 cm) diameter
RPM	400
Hopper Capacity	1.8 ft ³ (51 L)
Dust Filter	Resin-coated, pleated paper panel, 27 ft ² (2.5 m ²) area
Motor	600 W
Batteries	Two 6 V, 242 Ah, wet or two 6 V, 180 Ah, maint-free (Gel)
Max Speed	2.8 mph (4.5 kph), forward only
Weight (Machine Only)	217 lb (98 kg) (with onboard charger)
Battery Weight	Two 6 V, 242 Ah wet – 132 lb (60 kg) or Two 6 V, 180 Ah maint-free (Gel) – 136 lb (61.6 kg)
Battery Charger	Standard onboard, 12 V, 20 amp, wet/gel
Part Number	56 102 248 Terra® 132B w/two 242 Ah wet batteries, onboard battery charger 56 102 682 Terra® 132B w/two 180 Ah maint-free (Gel) batteries, onboard battery charger
